Property Description

Finca La Poza is a gem with its natural beauty and potential for development. The proximity to natural pools and waterfalls, as well as hot springs, is a major plus for tourism. Developing a commercial structure like a retreat or boutique project seems like a fantastic idea given the natural attractions nearby. Updating the internal road and creating a new access from the upper road for segregation are smart moves for organization and development. The existing flat pads offer a good starting point for construction or development projects. Having a concession for a spring adds value, especially for water needs in a retreat or compound setting. Given the abundant water and natural attractions, designing a medium to large-size retreat or family compound could attract a steady flow of visitors or residents seeking a serene and natural environment. Access to electricity from the main public road is also a practical advantage for development.
