Property Description

The Best Location in the Market! Our highly sought-after and rarely available Playa Hermosa de Uvita, with its tropical climate and lush nature, is home to this beautiful pre-construction project. It consists of 0.567 acres (2296m2) ready for construction, with all building permits in place and its own 3D design strategically tailored to the terrain's topography. Among its highlights are its 3 bedrooms, each with its own bathroom and private closet, all overlooking the refreshing and elegant pool. Its spacious living room with sofa and adjacent television complements the open concept kitchen adorned with a quartz island and elegant cabinets, perfect for your family gatherings, along with a guest half bathroom for added comfort. Once you see the design of this home, you'll love it from start to finish; from the pool, you'll have a beautiful view of the creek that borders the property and you'll enjoy watching the howler or white-faced monkeys while soaking in the peace that only Costa Rica can offer.
