Property Description

Casa 8 is a contemporary oceanview residence designed for comfort, style, and seamless indoor-outdoor living. This modern 4-bedroom, 3.5-bath home features an open-concept layout with panoramic Pacific Ocean views from every room, plus the rare bonus of both sunrise and sunset views from the front and back of the property. High-quality finishes are showcased throughout the home, including Spanish porcelain tile flooring, teak-accented ceilings, custom teak cabinetry, and quartz countertops. The bathrooms offer spa-like details with rainfall showers, while energy-efficient on-demand hot water heaters, LED lighting, and ceiling fans with remote controls in every room add everyday comfort and efficiency. A stunning custom Guanacaste hardwood floating staircase serves as a striking architectural focal point. Outdoor living is just as impressive, featuring an infinity-edge pool, mature tropical landscaping, generous balconies and patios, an exterior shower, and a fire pit—all positioned to take full advantage of the unobstructed ocean views stretching along the Pacific coastline, with Manuel Antonio visible in the distance.
