Property Description

This thoughtfully designed three-bedroom, three and a half bath home near Playa Pelada offers serene ocean views and immediate access to nature, backing up to a protected refuge with walking trails and wildlife watching. Built for occupants with chemical sensitivities, the house features low-VOC paints, natural concrete finishes, and non-toxic varnishes throughout, creating a healthy, breathable living environment without sacrificing style or durability. The open-plan main level maximizes light and air, with expansive windows and covered outdoor living spaces that frame blue-water vistas and the surrounding canopy. Large open terraces provide ample space for dining, lounging, and entertaining, while a private pool offers a refreshing focal point for relaxation. All three bedrooms are en suite and privately sited, and a guest half bath serves common areas—ideal for families or couples seeking both communal areas and quiet retreats.
