Property Description

Jungle Islands A Rare Coastal Rainforest Legacy on Costa Rica's Golfo Dulce Osa Peninsula | Golfo Dulce Presenting an extraordinary offering on one of only four tropical fjords in the world — a once-in-a-generation coastal rainforest estate anchored on the emerald waters of the Golfo Dulce. Set between the legendary Corcovado National Park and the Piedras Blancas Reserve, Jungle Islands – Los Mogos is a private sanctuary where primary rainforest meets reef, and where ownership carries the weight of legacy. Sweeping across 107 titled hectares with an additional 37 hectares of Maritime Zone concession, this property commands more than three kilometers of pristine oceanfront, four secluded beaches, a mangrove estuary, and its own cluster of jungle-crowned islands. From nearly every point of the land, the view unfolds across the Mogos Islands, the mouth of the Río Esquinas, the shimmering Golfo Dulce, and the green spine of Piedras Blancas National Park beyond.
