- Pool

Property Description

THE SUSTAINABILITY Fall in love with this SUPER VERSATILE farm – at 32 acres, you can do a lot here! This sustainable and eco-friendly land is water-supplied by a well, but it also holds a spring and a bordering creek – a lot of assurance. Electricity is provided via a solar system. This is FULL off-the-grid sustainability – yet ‘the grid’ (ICE electricity) is available at the property border and this connection can be made quickly & easily, if so desired. Dozens of fruit trees - and the option to stock the house-side pond with Tilapia fish - polish off this COMPLETELY sustainable offer. INVESTMENT & DEVELOPMENT GOLDMINE Because this land touches a public road, both residential & commercial development options are on the table. And this is a GOLDMINE opportunity. A sub-division, residential development, a HUGE multi-structure family compound, hotel, exclusive resort, commercial centre, retirement community, yoga or spiritual retreat, and even a full mixed-use investment can materialize here.
