Property Description

Welcome to homesite 27-E. This property features gorgeous mountain and valley views paired with world class design. Costa Rican WR Architects have yet again created a masterpiece for the Senderos Community with a minimalist modern beach style. Clean lines and elegant use of natural materials allow the home to feel both organic and classy at once. We love the unique touch of the detached fourth bedroom across the pool and outdoor living area. This Hollywood Hills style pool house is designed as an en suite bedroom, but also could serve as a spa/gym or simply an amazing tropical entertainment space. This 4-bedroom, 4.5 bath sets up as a perfect full-time or part-time family home. The hallmark Senderos "Natural Modern" design features shared living spaces that connect indoor to outdoor seamlessly. The open floor-plan feels inviting with indoor/outdoor living, dining, entertaining within eyeshot of the gourmet kitchen.
