- Internet
- Ocean View

Property Description

Model G on lots 41 and 42 in Tamarindo Park are super unique offerings, these two lots are facing north with a strategic position within our community that gives them a breathtaking view of the Tamarindo and Langosta beaches. The layout of this home was designed taking this very detail in mind, therefore 3 of the 4 bedrooms have an incredible ocean view and 1 has a gorgeous valley view over the National Park Marino de las Baulas and our finca. Aligning with Tamarindo Park's already existing floor plans created by Richard Muller, this design will have the open concept with carefully thought vaulted ceilings, floor-to-ceiling sliding doors that allow for natural airflow and natural light throughout the homes. The terrace invites family and friends to enjoy the beautiful nature while grilling on the BBQ or relaxing in the private pool with an incredible view of the Pacific Ocean. Special features: This model home features 2 master bedrooms, one that leads you right out to deck and pool area and the other one on the second floor with a private little deck that overlooks a gorgeous valley view.
