Property Description

NATURE LOVER? If yes, then this is what you are looking for! Finca Sinai is a beautiful jungle farm located in the Mountains of the Osa Peninsula, just one hour and thirty minutes drive to Uvita. Take a nice drive along the Coastal road to visit this spectacular property with 84 acres of jungle with amazing views of the mountains and the Sierpe Lagoon that compliments the vistas perfectly. Endless potential for a big development or a family compound due its location and topography, one of the most private places you will find on the market with countless building sites, two beautiful creeks that divide the property in half with a 90 foot waterfall and another stream that flows over the border line in the lowest part of the property with water all year round. The property line is well maintained by the current caretaker farmer that works for the owner of the land. This property is one of the most beautiful places to start your new journey in Costa Rica and create a nice future for you and your family.
